REMARKS

MAR 28 2007

The amendment above improves the form of the application without adding any new matter. When Applicants filed the subject U.S. National Phase Application, Applicants indicated on the transmittal letter to the U.S. Elected Office that the claims had been amended under Article 19. However, the amended claims under Article 19 do not appear to be part of the application file according to U.S. Patent and Trademark Office records accessible via PAIR. Accordingly, the attached Preliminary Amendment conforms the claims to the claims as amended under Article 19 in the corresponding PCT patent application.
